## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of group I comprising claims 1 – 11, and including newly added claims 22 – 35, in the reply filed on 11/17/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 12 – 21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 11 and 22 – 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 – 11 and 22 – 35 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps.

See MPEP § 2172.01. The omitted steps are:

Regarding claim 1, it is unclear as to how the process environment is controlled during process environment exposure of the structure based on a tunneling current measurement. How is the gap in the solid state structure related to or determined based on the measured tunneling current and applied voltage bias? What specific parameters of the process environment are manipulated and controlled during the process environment exposure of the solid state structure?

Art Unit: 1743

What specific environment conditions constitute the fabrication process environment conditions that are selected to alter the extent of the gap in the solid state structure? A feature that is taught as critical in the specification should be recited in the claims (see MPEP § 2164.08c).
